PRINCIPAL'S MESSAGE

We aim to provide young people with a wide variety of engaging learning experiences during their time with us. I would like to think that every child who attends Aranda School will find something that motivates them and

stimulates their curiosity. Our children's wellbeing and safety are of the utmost importance to our staff and the wider Aranda community.

We expect Aranda children to care for others, embrace our differences and strive to do their best. Good manners, resilience and compassion are all aspects of our graduate profile.

Our teaching team are an outstanding group of professionals who are committed to an evidence based approach to student growth. We focus on the needs of each individual and we measure progress on a regular basis. Our teachers visit each other's classrooms, share best practice and regularly participate in professional development sessions. Great teachers who are supported by positive parents bring the best out of children.

Aranda School provides students with a quality education. Students learn both academic and social skills to become well rounded individuals who are prepared for life outside of school. Students become critical thinkers, self-confident and able to contribute to society. They learn how to learn, interact with others and

have fun. **Phil Gray, Principal**
