## TRANSITIONS CAMPAIGN INFORMATION

### WHAT IS THE TRANSITIONS CAMPAIGN?

The Transitions campaign was developed in response to feedback from ECEC's and schools, and others working with children and families. With a focus on enhancing parental and educator knowledge, and recognising that transition starts as early as school enrolment, three distinct themes were identified: These include:

- ✓ Improving families understanding of the enrolment process so they enrol and connect with the school early,
- ✓ Improving families understanding of child development so that they can observe their own child's development, address concerns early and know what to do and where to go to if they have any concerns,
- ✓ Improving families understanding of transitions, including sharing information about their child with the school via the Continuity and Transitioning Statement and supporting their child to participate in ECEC and school led transition activities.

### WHAT THIS CAMPAIGN INCLUDES

- ✓ Video – a short video with key messages
- ✓ Flyer – listing the key messages that relate to the video.
- ✓ Poster – a larger version of the flyer to be put up in a high traffic area

### CAMPAIGN RESOURCES

Scan the QR code to find essential resources from the Transitions Campaign. Find out how to enroll your child in public school, watch child development videos covering age-appropriate milestones, learn what steps to take if your child is not meeting those milestones, and how to access the right services. Created with input from educators, ECEC professionals, and families like yours, these resources are designed to help parents and educators confidently navigate the phases of school enrollment and child development.
